About the Author

Don sought to understand the role of the Royal Australian Air Force in the Pacific War in the 1940s. He was surprised and disappointed to find that no book telling the complete story of Australia's own wartime emergency fighter, the Commonwealth Aircraft Corporation Boomerang, had been published.

Don decided to fill this gap by writing a book dedicated to the Boomerang. He is also a keen amateur photographer and is pleased that some of his photographs are included in the book.
